

Wade Stewart

stew.wade@gmail.com 703.980.2668 Washington, DC

A creative thinker who seeks an efficient work flow. I meet the challenge of staying engaged until the solution is identified and implemented. Organization and keeping the team smiling until we cross the finish line is the name of the game, as far I am concerned.

SKILLS

Experience building applications with: HTML, CSS, Javascript, jQuery, AJAX, APIs, MEHN/MERN Stacks (MongoDB, Express.js, Handlebars.js, React.js, Node.js), Ruby/Rails, Python/Django, Git, and Github.

Experience with Wordpress, Microsoft Office, Quickbooks, Prezi, and Adobe Creative Cloud.

EXPERIENCE

Web Developer, General Assembly, Nov 2017-Feb 2018

Web Development immersive program focused on learning the essentials of full stack applications using industry best practices in object-oriented programming, backend MVC architecture, frontend frameworks/libraries, and computer science fundamentals.

Projects:

Flash Card App – HTML/CSS3, Javascript/jQuery

Full-Stack Q&A App – MongoDB, Express.js, Handlebars.js/Node.js

Streaming Media Search App – MongoDB, Express.js, React.js/Node.js

Fantasy Football Draft App – Ruby on Rails

Operations Manager, Computer CORE, 2014-2017

Managed administration of expenses and revenues, supervised 100+ volunteers and coordinated IT maintenance.

Documented program outcomes for funders, managed donations, and produced quarterly grant reports in support of \$1M in grant funding per year.

Coordinated computer refurbishment program: solicited used equipment, organized volunteer team, refurbished donated computers, and distributed to students.

Supervisor, EECO, 2012-2014

Ensured accuracy and quality of inventory for regional distribution center.

Maintained live inventory database using enterprise resource planning software.

Facilitated order management with vendors and sales department to ensure delivery deadlines and customer satisfaction.

EDUCATION
